

Update and helpful information during the COVID 19 Public Health Emergency

Business Office: The Office remains closed to in-person visits. This action has been taken to protect Members as well as staff. Correspondence and payments may still be dropped off through the mail slot to the left of the door. For now, employees are still working in the office answering the phones and email, but this situation may change depending on future developments.

Board of Directors: Meetings held face-to-face and in close quarters are not in keeping with best health safety practices and social distancing. The Board plans to begin using an online meeting program called 'Zoom'. We have been experimenting with the program and found it will work for the 9 Directors to hold a meeting online from our homes.

Board Meeting of March 18th: We had hoped to use an online meeting protocol to allow Community members to view the Board Meeting online. However, we have postponed this initiative due to the abbreviated timeline and logistics involved.

President Napier has declared that as a result of this emergency situation, the Board of Directors will go ahead and meet online to conduct the business necessary to ensure Shelter Bay is able to continue operations and remain functional.

The full Agenda Packet for the meeting is posted at the Website and a video of the meeting will be available online at the Website as soon as practical following the meeting.

A Note on Flushables: A lot of us are using sanitizing wipes to keep our homes clean and healthy. A reminder that wipes should be placed in the garbage and not flushed down the toilet as they can cause problems for pumps in our wastewater collection system.

Helpful Information: We wanted to provide you with the following as we all work to acquaint ourselves with what may be our new normal for the next few months.

Please note that times are subject to change. Most menus and services available online.

What Can You Do? If you are willing and able to help a neighbor in need by running an errand or picking up supplies, please provide the Office with any details and your contact information. We're working on the logistics of a neighbor helping neighbor program.

Thank you, President Tom Napier and the Board of Directors
