

Ready for Spring?

We received information from the Wildfire Resilience Specialist for Whatcom and Skagit Conservation Districts about coming plant sales. These sales are a great opportunity to purchase native plants and there are fire-resistant options. A permit is now required whenever you are doing work that doesn't require an excavation permit, such as planting trees or bushes. The THPO permit is FREE. Questions should be directed to Marcia Julius (360-707-8456) at the Swinomish Tribal Historical Preservation Office (STHPO).
